Description

The Community Paramedic program responds to identified health needs in underserved communities, ultimately improving the quality of life and health of rural and remote citizens and visitors. The program seeks to prepare learners for roles that include the following: outreach, wellness, health screening assessments, health teaching, providing immunizations, wound care, recognition of mental health issues, and referral into the existing mental health care systems, and functioning as physician extenders in rural clinics and hospitals. Community Paramedic learners will also receive instruction in disease management, including aons, wound
