

Learning Objectives

- 3. Describe the chemical basis and biochemical origins of organisms.**

Learning Objectives

- 4. Compare and contrast different cell types.**

Learning Objectives

- 5. Explain the energy flow within cells**

Learning Objectives

- 6. Explain the mechanisms in cellular reproduction.**

Learning Objectives

- 7. Characterize DNA**

Learning Objectives

11. Explain the process of development

Learning Objectives

12. Demonstrate safe laboratory practices

Learning Objectives

13. Demonstrate the use of common laboratory instruments and practices

Learning Objectives

14. Develop the ability to write lab reports
