

South Central College

WELD 1010 OSHA 10 Hour and Welding Safety

Common Course Outline

Course Information

Description This course is intended to provide entry level general industry workers information about their rights, employer responsibilities, and how to file a complaint as well as how to identify, abate, avoid, and prevent job related hazards on a job site. The training covers a variety of general industry safety and health hazards which a worker may encounter. An emphasis is placed on safety issues that exist in the welding environment. (Prerequisite: Weld 1011 Weld safety or equivalent from another technical college or instructor approval.)
